Collaboration

Virtual office for your company to work, communicate, and collaborate, whether at home or in the office.

HD video calls and conferences

Create conferences for up to 48 participants, talk without time limits, record your calls, and change backgrounds.

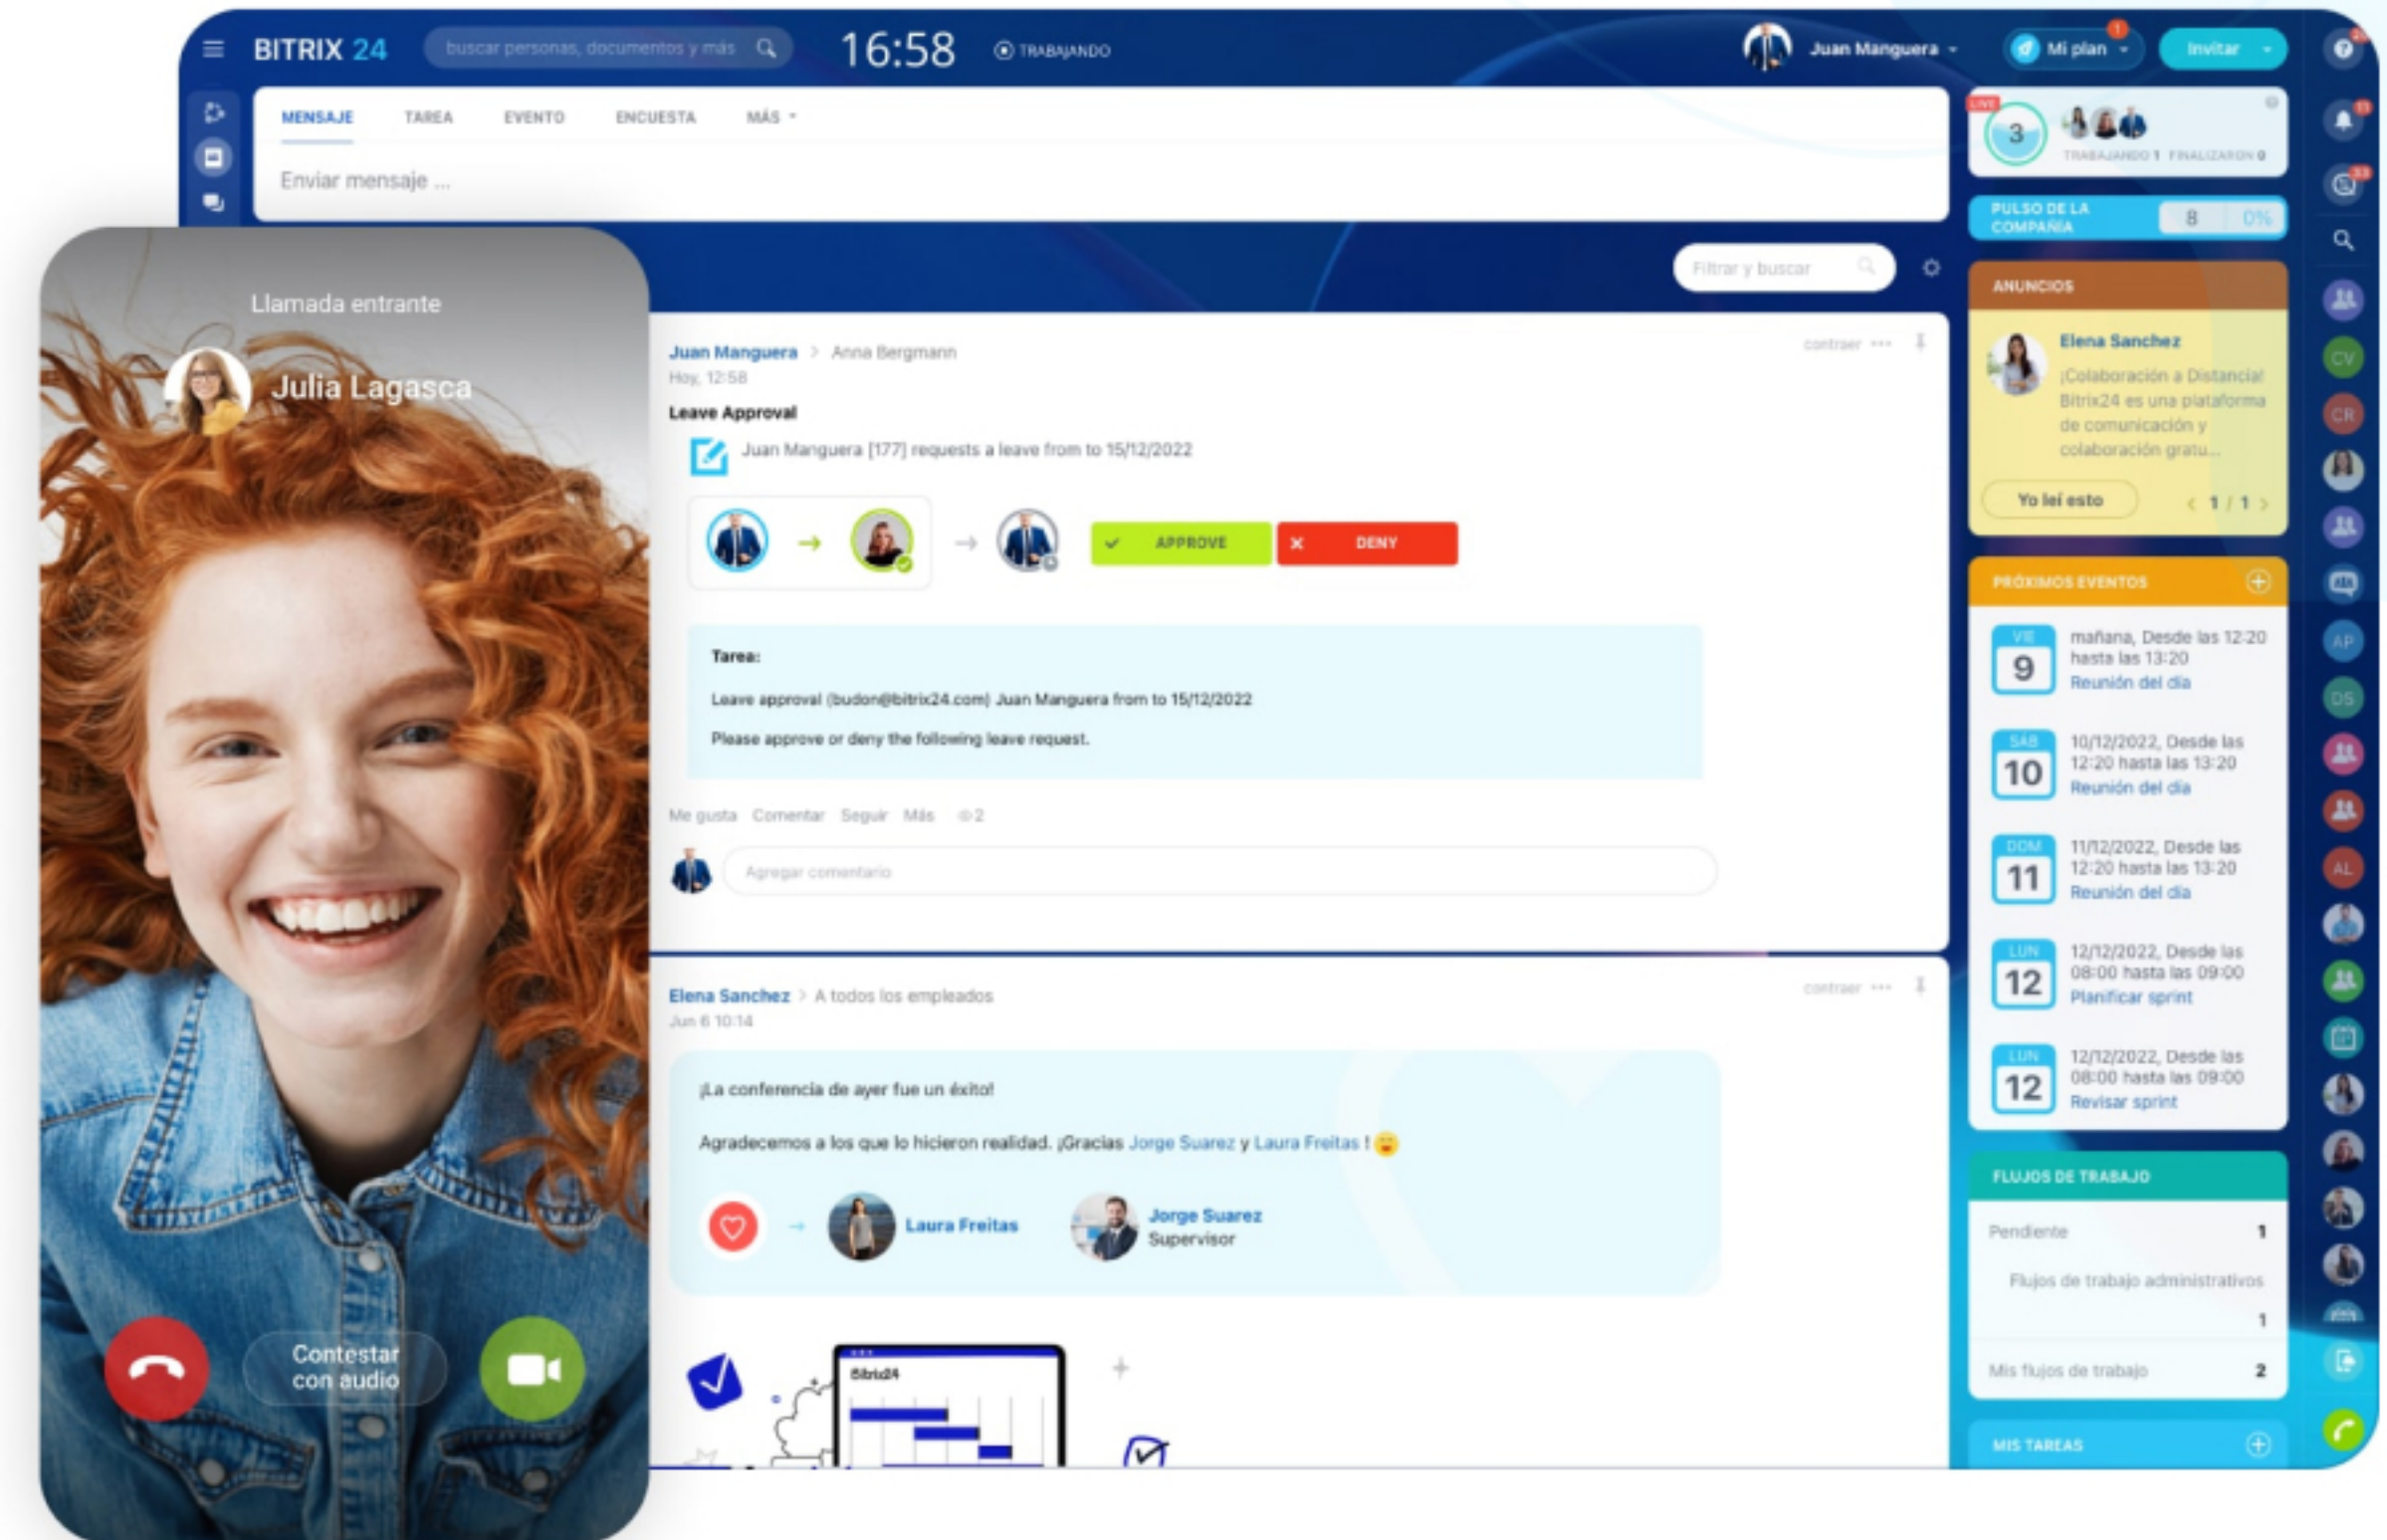

Chats

Private and group chats, a quick and easy way to discuss ideas and share files.

Tracking working hours

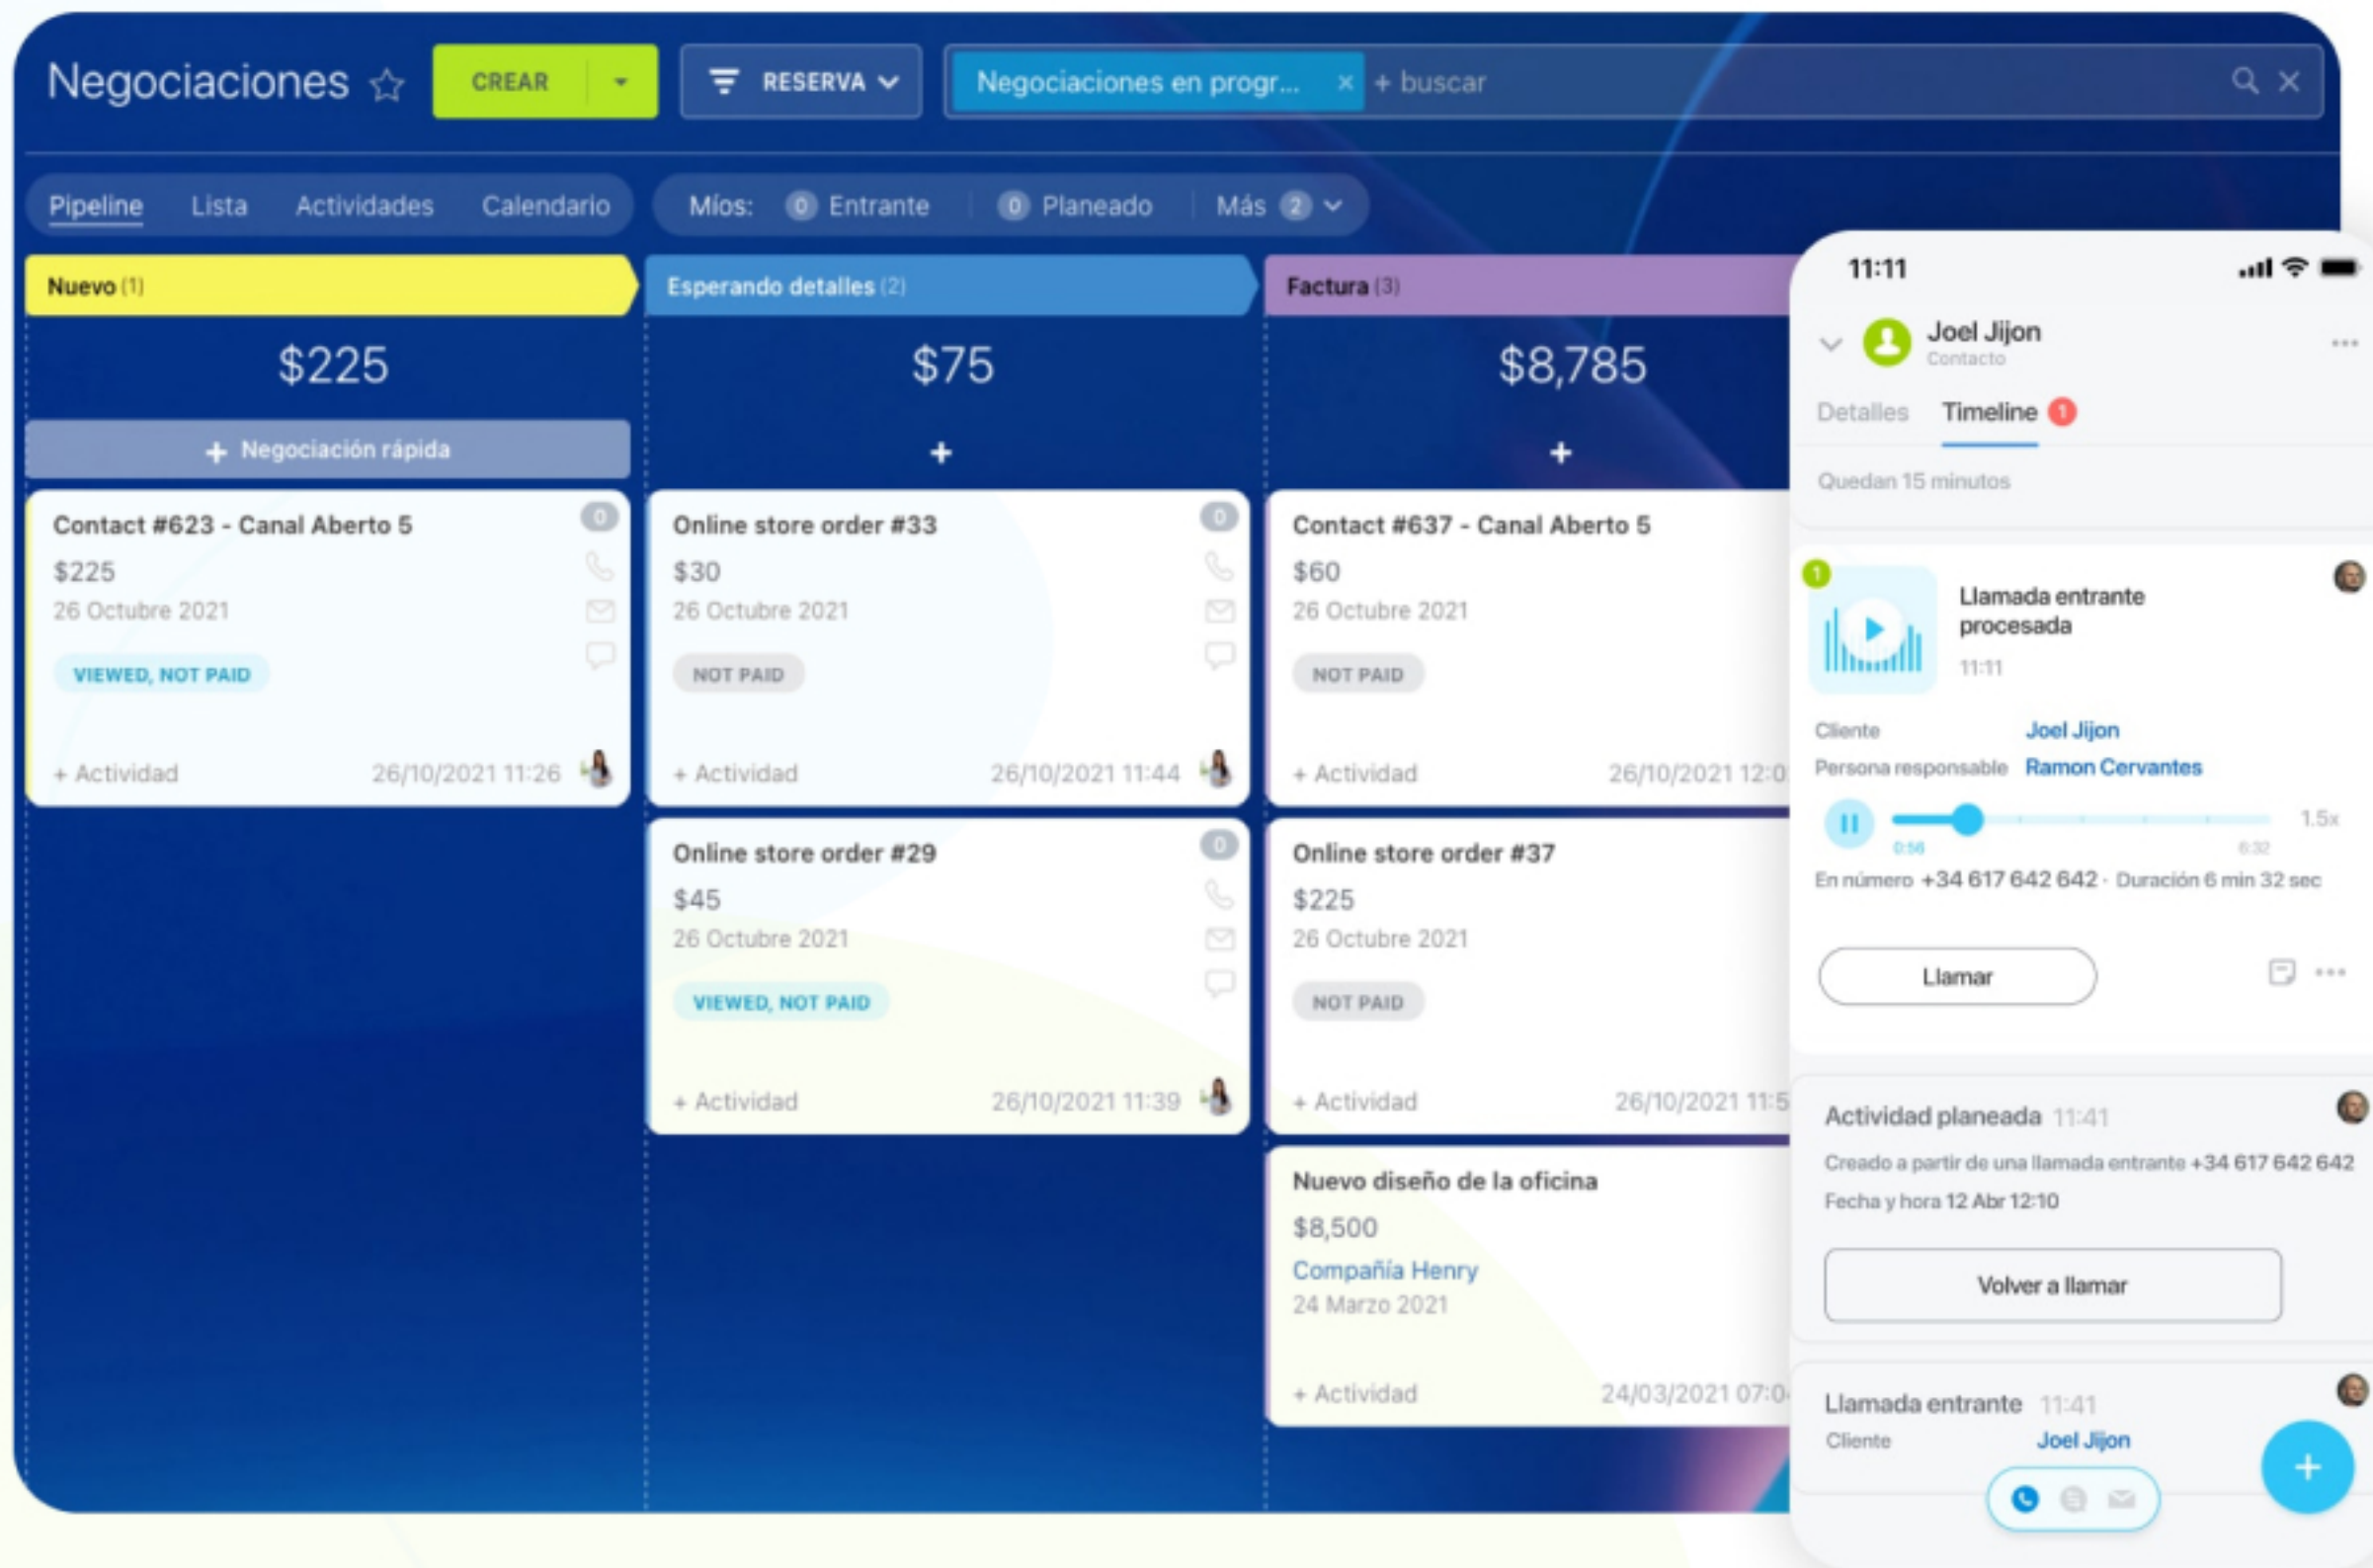

Your team can start/pause/end their workday using an online time clock integrated into Bitrix24.

WWW.GETS.COM.CO

CRM

With customer management, customer support, and marketing automation features, it is a digital sales suite.

Acquisition of prospects

Generate leads through various channels: web forms, live chats, phone calls, or social media.

Prospect management

Integrated lead scoring tool to see which leads your sales reps should focus on.

Sales automation

Dozens of sales and marketing automation rules and triggers that will save you time and money.

WWW.GETS.COM.CO

Tasks and projects

Assign tasks, receive work reports, and manage projects online with the latest tool for “getting things done right.”

Workload management

Oversees project activity, receives work reports, and distributes the workload more evenly.

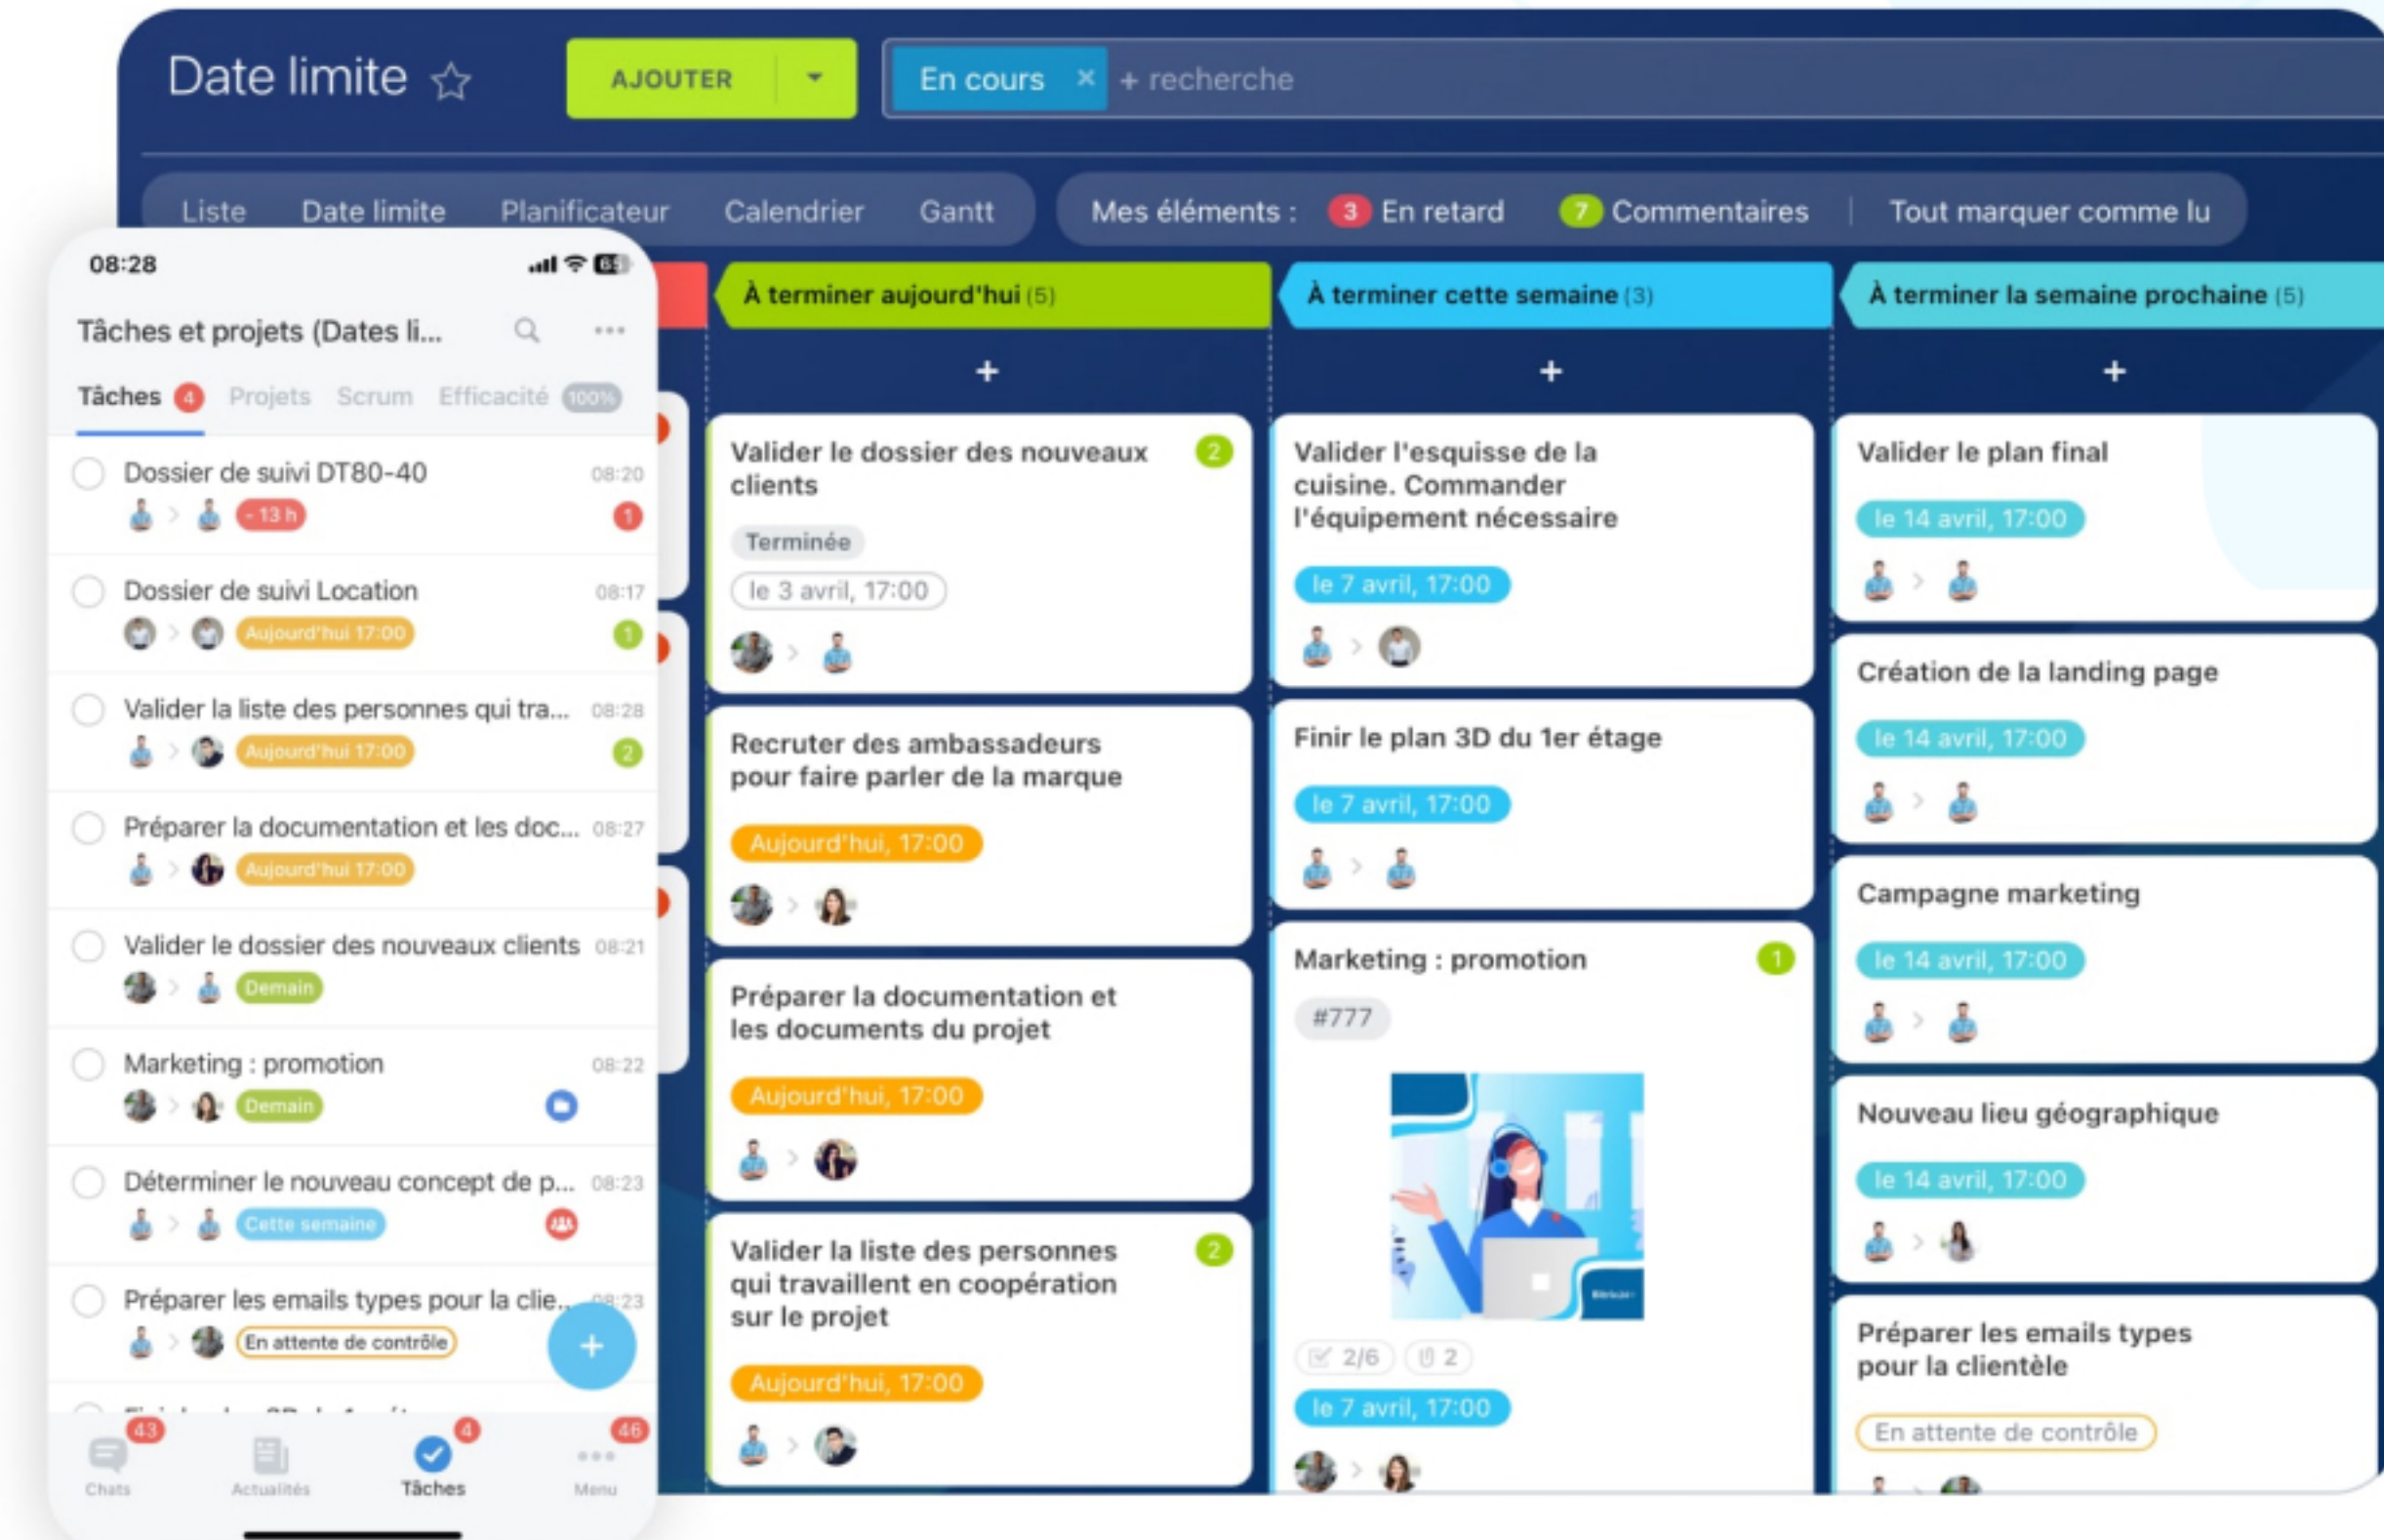

Task templates and automation

Save time by automating recurring tasks (e.g., “daily SEO report”).

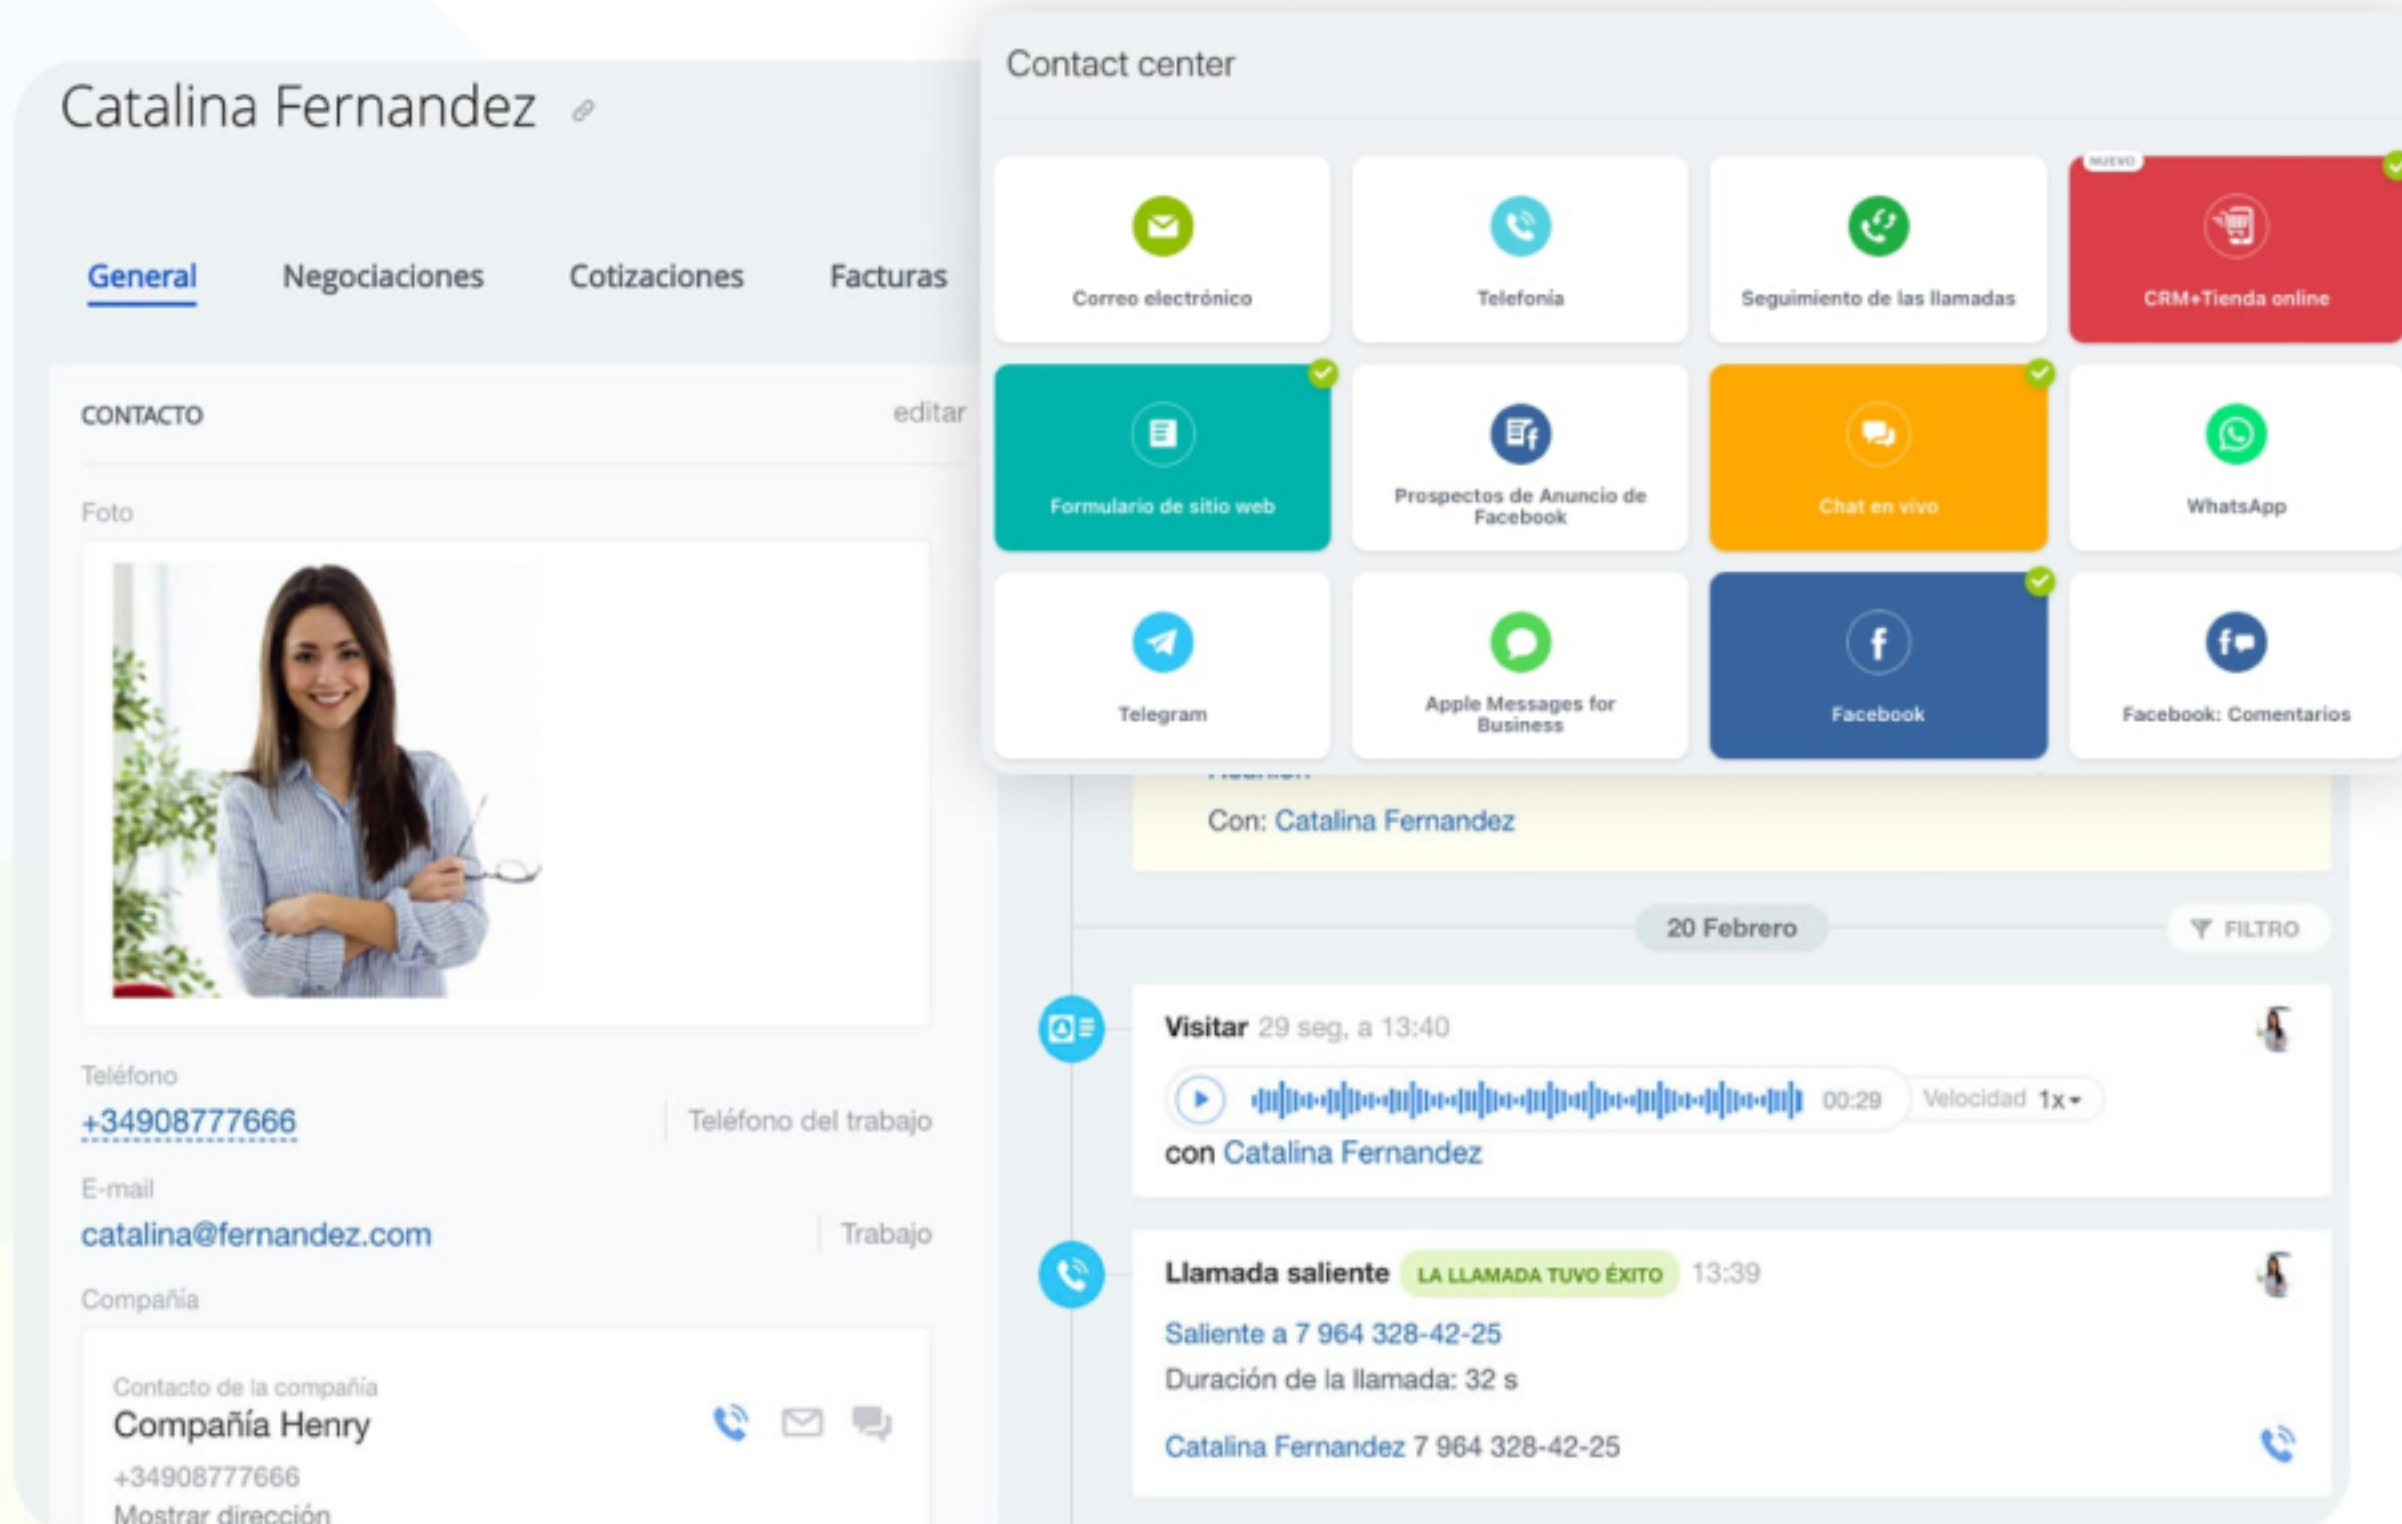

Visual project management

Printable Gantt charts, customizable Kanban boards, and many other visual representations for your projects.

Contact Center

Every single tool you need to maintain fast and effective communication with your customers.

Telephony

Set up your own call center with intelligent routing and call tracking.

Live chat

A wide range of advanced settings, including customizable chatbots, default responses, and more.

Contact forms

Contact, comment, and callback request forms, customizable for your website.

WWW.GETS.COM.CO

Sites and stores

A template-based website builder that allows you to create stunning websites, landing pages, and online stores.

Website builder

Choose one of our industry-specific templates and build your own site on it. No coding skills required.

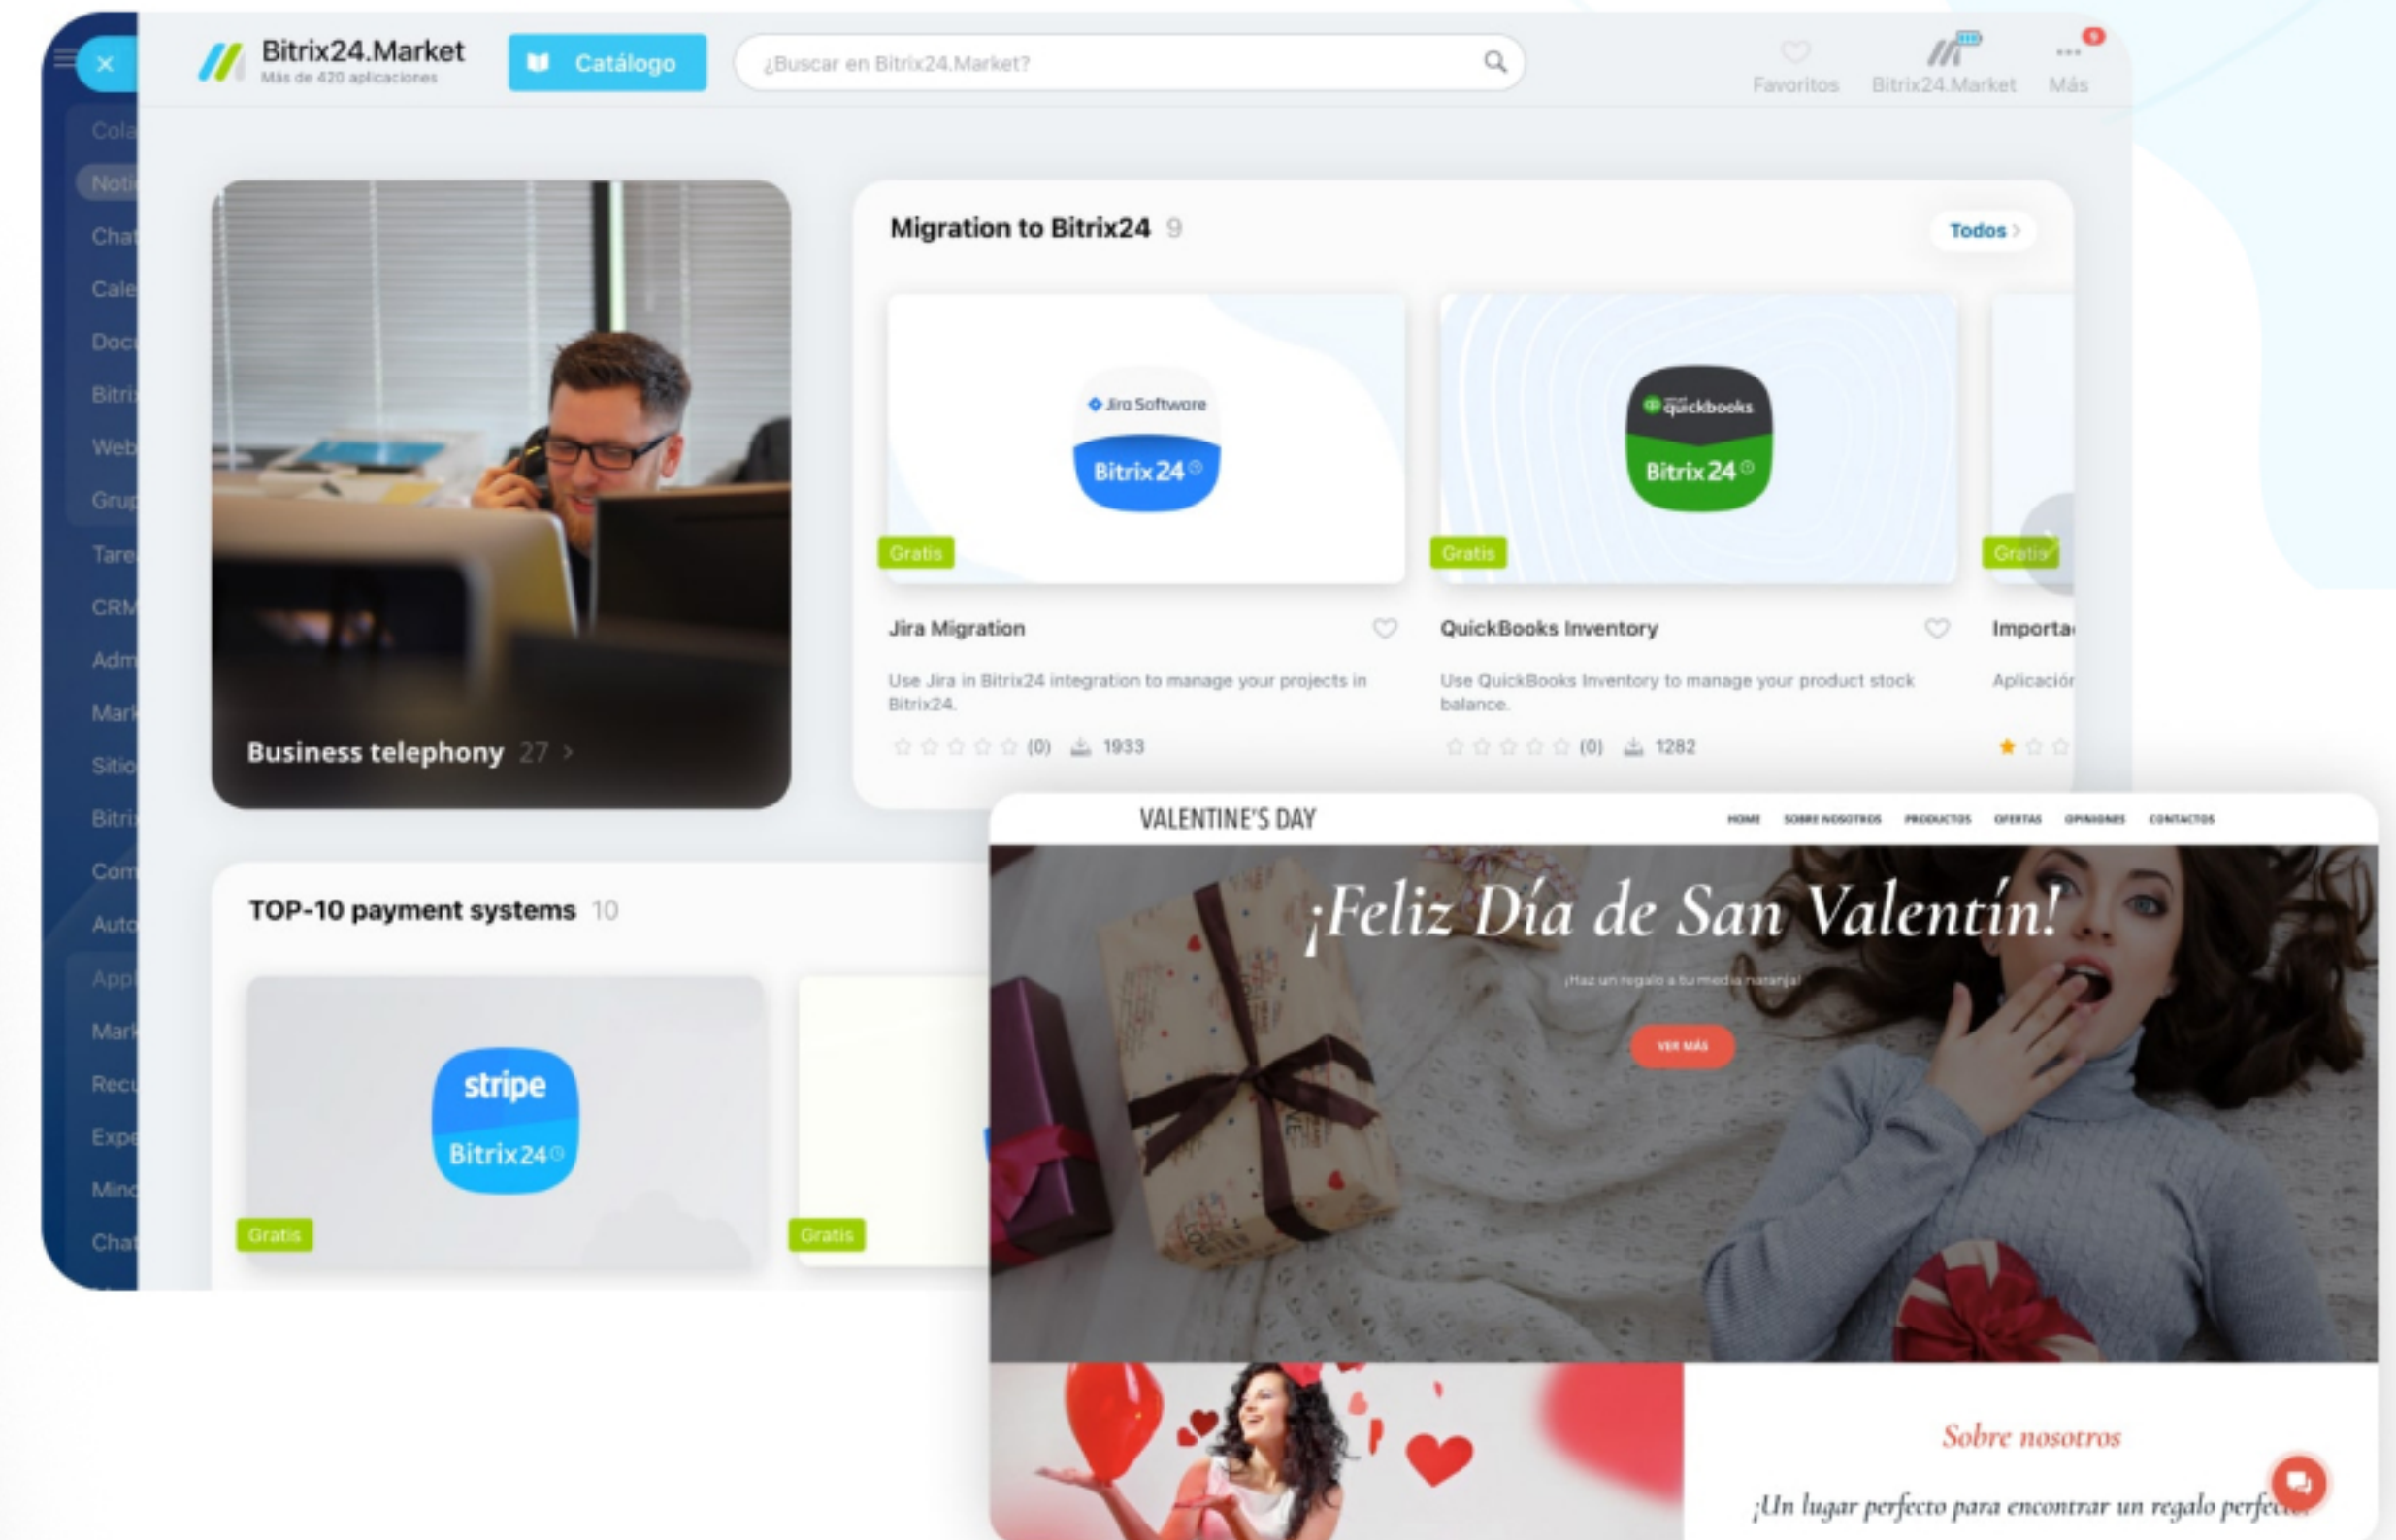

Online store

Create and publish your online store. Track your sales, manage inventory, and accept payments.

Ready for SEO

Your websites will be pre-optimized and SEO-friendly, with minimal adjustments required on your part.

WWW.GETS.COM.CO

Human resources and automation

An online business automation suite to help you manage your team and workflows in the most efficient way.
